

What happens at the intersection of

# **PUBLIC POLICY,** **SCIENCE,** and **ENGINEERING?**

Visit the **Battelle Center**  
to find out.

# Battelle Center's Student Communities- of-Practice

prepare you for life outside a  
classroom in important industries & public policy issues:

- **Aerospace** innovations and policy
- **China's** rise in science, engineering, and innovation
- Challenges at the **public health-environment** (human/nature) interface
- **Energy** transitions and policy
- **Smart-mobility/transportation** infrastructure and policy

**Belong** to a supportive community in a physical home

**Practice** with hands-on student-led research & projects

**Learn** professional skills & how to navigate workplace cultures

**Stretch** with mentoring & book/film salon discussions

**Connect** with your first professional network

## Get set before you graduate.

**THE OHIO STATE UNIVERSITY**
